FRONT OF COVER

About this template file

- Bleed 20 mm - extend graphics, color plates or background pictures all the way to the bleed guidelines around the artboard.
- Delete the info layer before saving the print original.
- Add trim marks.
- Save your artwork as a print-ready PDF.

For best result

- Use Adobe Illustrator or Adobe InDesign.
- Picture resolution should not be lower than 150 dpi (at 100% scale), preferably 300 dpi.
- Convert text to outlines.
- Use vectorized logotypes in Pantone colours if available.
